GIUSEPPE LEGNAME AND DETLEV RIESNER	
Introduction	9
I. Historicals	
1 DETLEV RIESNER	
No Prions – no Fun – and no Nucleic Acids	13
2 HENRY BARON	
My Conversion from Imagined Slow Virus to Misfolded Protein – an Anecdotal Stroll through Dogma, Reason and Science	27
3 RUTH GABIZON	
Stan and my Prion Story	35
4 GEORGE A. CARLSON	
Prions & Prejudice: from <i>Sinc</i> to Systems with Stan	47
II. Structural Biology, Cell Biology and Neuropathology	
1 HOLGER WILLE	
Structural Biology of the Infectious Prion	65
2 GIUSEPPE LEGNAME	
Synthetic Prions and Other Stories	75
3 HERMANN M. SCHÄTZL	
Towards the Cellular Mechanisms of Propagation and Clearance of Prions	85
4 GLENN TELLING	
Excitement in Prion Research	101
5 STEPHEN J. DEARMOND	
Discovering the Pathogenesis of Neuronal Dysfunction and Degeneration in Prion Diseases with Stanly Prusiner	107
III. Neurodegeneration and Therapy Approaches	
1 STANLEY B. PRUSINER	
Prions and Neurodegeneration	137
2 DAVID R. BORCHELT and GUILIAN XU	
Proteostasis in Neurodegenerative Disease	159

3	DALE E. BREDESEN	
	Prionic Loops, Anti-Prions, and	
	Dependence Receptors in Neurodegeneration.....	171
4	VÉRONIQUE PERRIER	
	The Dominant Negative Inhibition:	
	from Molecular Mechanisms to Therapy	183
5	CARSTEN KORTH	
	DISC1opathies – Mental Illnesses Associated to Aggregated DISC1	193
	STANLEY B. PRUSINER	
	<i>A Note of Appreciation</i>	207
	Picture Gallery	209
